

PLANNING & IMPLEMENTATION PROJECTS LIST

Founded in 1987, [Heritage Landscapes](http://www.heritagelandscapes.com) is a small, high-quality firm providing professional consulting in preservation landscape architecture and planning for communities and historic public properties of various types and scales. Projects may address city-wide or regional heritage assets, or specific properties such as cemeteries, historic sites, museums, national parks and monuments, capitols, modern landscapes, private properties, campuses, botanical gardens, arboreta, battlefields, military sites, park systems, parkways, and parks. Our project list is organized into headings, demonstrating the range of [Heritage Landscapes](http://www.heritagelandscapes.com)' expertise in planning, implementation, management, maintenance, and interpretation of varied cultural landscapes. In this list, the project and location are followed by the original design professionals and/or development period. In order to avoid repetition, the role of [Heritage Landscapes](http://www.heritagelandscapes.com) is assumed as project leader with subconsultants credited. When we serve as landscape preservation subconsultants, the project lead is listed and our role noted. Multiple projects for a single historic landscape are indicated by title and date. Projects are arranged with current work first, in reverse chronological order, by topic.

CAPITOLS, CIVIC & ACADEMIC CAMPUSES

AOC House Office Buildings Cultural Landscape Report, Washington DC, Rayburn West Plaza waterproofing and landscape character renewal; 2025, AECOM team; buildings and East and West Parks, streetscapes and surface parking, 2018, for the Architect of the Capitol, AECOM on-call.
